DETAILED ACTION

1. This Office Action is in response to Applicant's Request for Continued Examination (RCE) and Supplemental Preliminary Amendment filed on April 27, 2006. Claims 1-3, 5-9, 12, 17, 20, 22, 23 and 31-42 are pending.

Allowable Subject Matter

2. Claims 1-3, 5-9, 12, 17, 22, 23 and 31-42 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to providing authentication between digital AV data units including at least a data significance deciding means for deciding the significant degree of digital AV data and plurality of authentication rules storing means. The closest art of record, Sugiyama, Al-Tuwaijry, Okuyama and Ekushingu either singularly or in combination fail to teach the cited limitation "the public and secret keys, or the common key are used for transmitting a sole single key from a transmission unit to a plurality of receiving units depending on a significance degree of the digital AV data, and the sole single key does not depend on the respective receiving units, and is used when the digital AV data is transmitted from the transmitting unit to the receiving units and if the first rule or the second rule is selected by the transmitting-side authenticating means, the digital AV data encrypted using the transmitted sole single key is transmitted from the transmitting unit to the receiving units".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
